# High protein ProSource® Gelateins

are available in 160 calorie, 220 calorie and sugar free versions. All are made with hydrolyzed collagen protein and whey protein isolate for rapid absorption and utilization. Great tasting, convenient and easy to serve ProSource Gelateins are the best way to ensure your patients and residents get the protein they need without over-feeding calories.

ProSource Gelateins deliver two and three times the protein of standard nutritional shakes, puddings and clear liquid drinks. Available in refreshing fruit and citrus flavors they offer your patients variety from standard milk shake flavors.

Shelf stable, easy to serve, ProSource Gelateins reduce the waste from non-compliance.

shakes, MCT oil requires less energy for absorption, utilization and storage and is well tolerated by those with malabsorption syndromes.

## The Clear choice for Clear Liquid Diets!

Patients on clear liquid diets receive simple carbohydrates from juice, jello, water ice but have a more difficult time getting the protein they need. ProSource Gelatein 20 and Plus are a good protein source for a majority of patients including diabetic, renal, surgical, bariatric, oncology, infectious disease and malabsorption.

ProSource Gelatein® Plus is a high calorie, high protein, great tasting gelatin in three delicious flavors: Cherry, Lemon and Pineapple.

ProSource Gelatein® 20 provides 20 grams of sugar free protein in a great tasting gelatin dessert. Sugar free makes them ideal for bariatric, diabetic and renal patients. Fruit Punch, Lime, Grape and Orange.

ProSource Gelatein® Plus with MCT oil is a ready-to-serve gelatin dessert with 220 calories and 20 gram of protein for patients who require extra calories. Tropical Lime.

Gelatein Plus is made with MCT oil (medium chain triglycerides), the preferred fuel source by healthcare professionals because the shorter chain fats are readily absorbed directly through the portal vein to the liver where they are quickly converted to energy, similar to carbohydrates but without increasing blood glucose. As compared to long chain triglycerides like corn or soy oil found in most
